Project Acknowledge

eProject is a step-by-step learning environment that closely simulates the classroom and Lab based learning environment into actual implementation. It is a project implementation at your fingertips!! An electronic, live juncture on the machine that allows you to

- Practice step by step i.e. laddered approach.
- Build a larger more robust application.
- Usage of certain utilities in applications designed by user.
- Single program to unified code leading to a complete application.
- Learn implementation of concepts in a phased manner.
- Enhance skills and add value.
- Work on real life projects.
- Give a real life scenario and help to create applications more complicated and useful.
- Mentoring through email support.

Project Objectives

The Objective of this program is to give a sample project to work on real life projects. These applications help you build a larger more robust application.

The objective is not to teach you JavaScript/Dreamweaver but to provide you with a real life scenario and help you create basic applications using the tools.

You can revise the chapters before you start with the project.

This project is meant for students who have completed the module of HTML5. These programs should be done in the Lab sessions with assistance of the faculty if required.

It is very essential that a student has a clear understanding of the subject. Students should go through the project and solve the assignments as per requirements given.

Kindly get back @ eprojects@aptech.ac.in in case of any doubts regarding the application or its objectives.

Synopsis

Venus Handicrafts is certified company engaged in manufacturing and exporting of Decorative Handicrafts to global importers, wholesalers and retailers since 1972. The ever-increasing acceptance of our products on global platform highlights our market presence and goodwill. The company has maintained its market value throughout the world. To enhance its value the organization wants to change the look and feel of the website for which they have approached you.

You are supposed to create a website for them with the below mentioned requirement specifications.

The website is to be developed for the Windows Platform using HTML5, JavaScript and Geolocation. The site should work well in all leading browsers including Chrome, IE, Firefox etc

Design Plan: Venus Handicrafts	Document Name: Problem Defination	SWD/Form No.01/PD/Ver1.0
Effective Date: 07/11/2020	Version 1.0	Page No: 1 of 33

Problem Definition

Venus handicrafts, a company engaged in manufacturing and end exporting of decoration handicrafts to global importers, wholesalers and retailers since 1972. The company provides valuable decoration handicrafts. And because of increasing the value of their products on the international market. In conclusion, the company wanted to create a website which could approach your look and feeling, like a gallery with information on the products, and this website has to bring an international platform are the required things.

Functional Descriptions

- 1) The Home Page should be created making use of Frames with a suitable logo
- 2) Link on the home page must be included such as Home, About us, Gallery, Contact information, Handicrafts products.
- 3) The look and feel of the project must be made user friendly and uniformity in the color combination must be maintained.
- 4) Handicrafts such as:
 - Iron Handicrafts
 - Glass Handicrafts
 - Brass Handicrafts
 - Wood Handicrafts
 - Aluminium Handicrafts
 - Handicraft Decorative
 - Tables wares
 - Home Décor
 - Candle Accessories
 - And other additional products
- 5) Navigation of the project must be made smooth.
- 6) Site Map
- 7) Gallery
- 8) FAQs
- 9) Contact us page must be included. Address of the Company should be displayed using GeoLocation API (eg. GoogleMaps).

Data processing

User

Input

- Registration information for Venus Handicrafts members
- Give feedback or comments

Process

- Search or finding the product
- Log in to check, buy the product
- Check the information from the product

Process

(users will receive the following notifications)

- Successful registration notice
- Notice of successful buying
- Notice of successful feedback

Webmaster

Input

- Login information to administer the website
- Information to change / add or delete: Updates new product, update on price changes,...
- Get feedback and reviews from user

Design Plan: Venus Handicrafts	Document Name: Customer Requirement Specifications	SWD/Form No.02/CRS/Ver1.0
Effective Date: 07/11/2020	Version 1.0	Page No: 4 of 33

Process

- Change / add / remove product that no longer serve
- Reply / delete comments from users

Output

(the website manager will place the following message)

- Successful registration / change / deletion of member account information or failure.
- Respond to success / failure suggestions, comments

Hardware / software requirement

Hardware

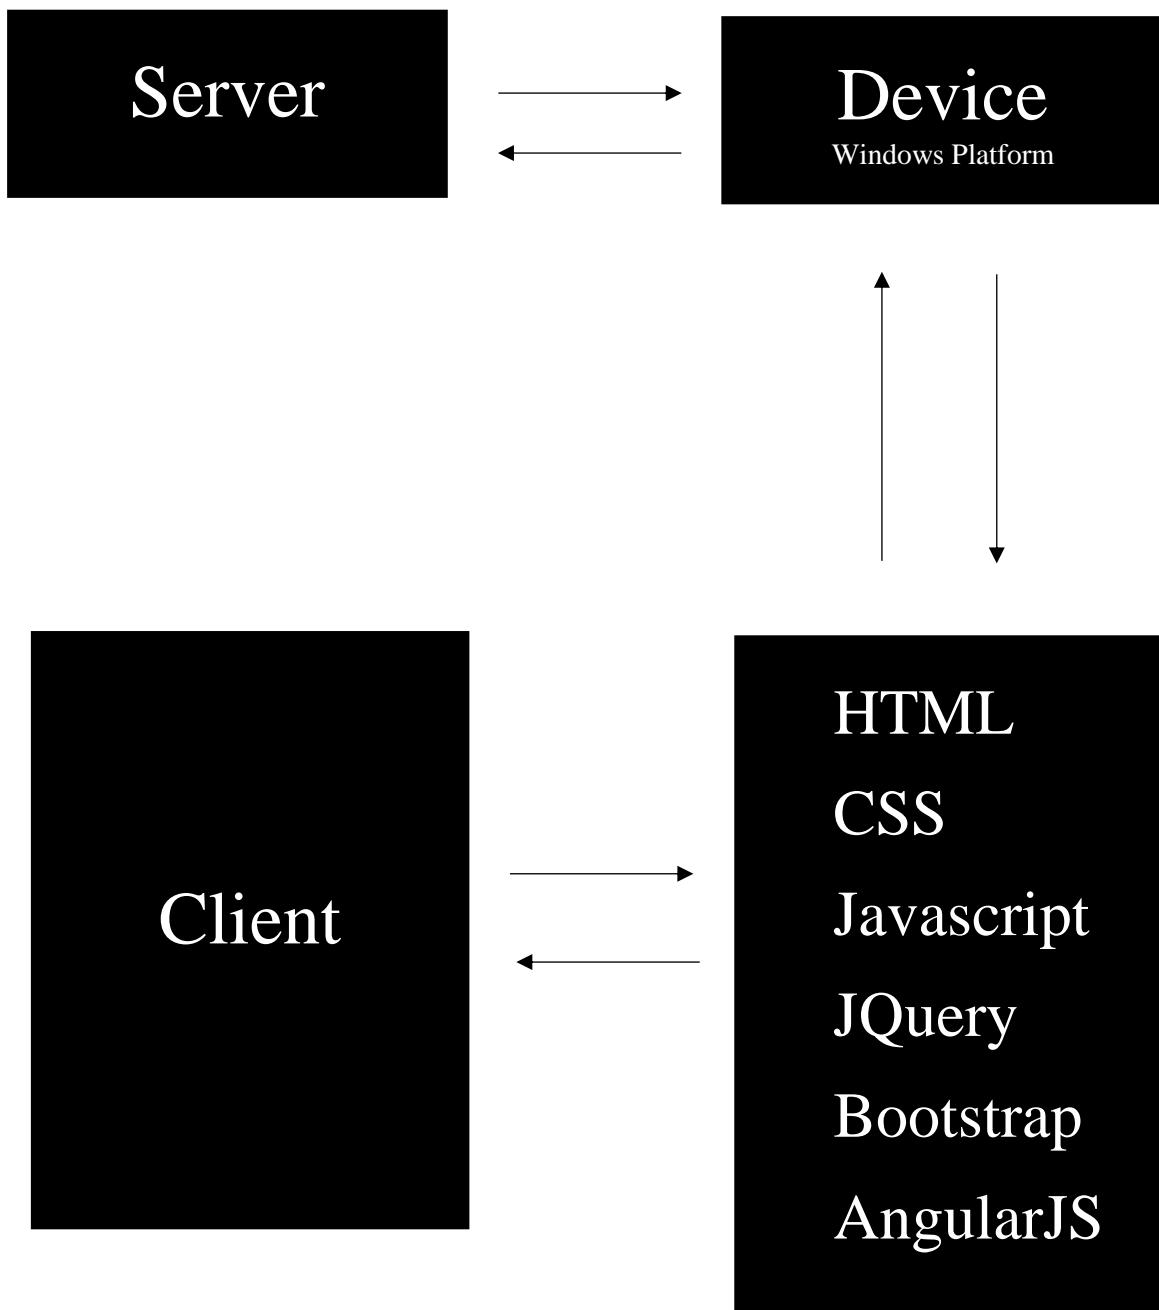

- A minimum computer system that will help you access all the tools in the courses is a Pentium 166 or better
- 64 Megabytes of RAM or better

Software

- Notepad / HTML editor
- Dreamweaver
- IE 5.0/ Netscape 6.0

Story Company

COMPANY

History

1972s

Operating as a household business with a group of craftswomen at seagrass village in Thanh Hoa province, Vietnam.

1980s - 1990s

Start exporting to Union of Soviet Socialist Republics.

2001 - 2003

2001: Registering as Viettrang Handicraft Company. Exporting finished, semi - finished and raw materials to Asian marketing including Japan, Korea, China along with serving domestic market. Especially, we are the first company in Nga Son, which contracted to export seagrass product to Japan directly.

2012 - now

2012 - 2014: Being nominated as one of handicraft manufacturers to participate in the Export Coaching Program and Sustainable Design Program supported by the Netherlands Foreign Affairs. Currently: Exporting to all five continents with main markets of United States, Netherlands, United Kingdom, other EU countries, Japan and Korea

Story Craftmanship

CRAFTSMANSHIP

"It is not only a skill. It's a life."

Weaving

Weaving

Since the 1972s, originally from the culturally rich village of Vietnam, our artisans grew up surrounded by natural fiber especially seagrass and weaving skill that has been passing down from their ancestor. Inherited not only the weaving skill but also the love in craftsmanship, our artisans are passionate about incorporating the traditional weaving into their work. This technique requires all steps done by hands. Therefore, our craftsmen must have rich experience and skillful techniques that nonstop develop through the decades to create the best handicraft products. Retaining the tradition does not mean being bound to it and ignoring evolution and market trends. Our product design process is beautiful between traditional skills craftsmanship from our artisans and the creativity from our designer's team and our designer volunteers who get inspired from the local livelihoods, market consciousness, and their magnificent imagination.

Artisans

At Venushandicraft, we pride ourselves on having over 500 local women with rich experience in manufacturing handicraft products. Their skill and workmanship is truly an art form! The local artisans choosing to continue in their mother and grandmother's footsteps are preserving Vietnamese traditional crafts. Each handcrafted piece reflects the spirit of artisans creating it and their passion for traditional weaving handicrafts. Creating a handmade product brings not only better support to their family, but also a way to hold a story and communicate culture and heritage. With admiration and respect we hope to promote their journey to

Story Craftmanship

growing with the artisans.

Materials

"Handcraft products for a sustainable life" is our philosophy. That is the reason we use only natural fiber for our handicraft products. They are mainly 4 materials: seagrass, water hyacinth, corn husk leaves and palm leaves.

Seagrass – "the grass that belongs to the marine".

This great material is harvested sustainably in Nga Son village where is well-known by the seagrass due to its strength, softness and silky. To our artisans, this material is not only high-quality natural fiber

Palm Leaf – "a purely natural gift comes from the forest".

All our individually handmade products with white patterns all crafted by palm leaf fiber. We selected this material then split, braid and hand-weave with traditional technique to

Water Hyacinth – "a weed plant from the river"

They are the most popular materials for home handicraft products due to its durability and beautiful brown color. It is a soft material that has been used many for handweaving

Corn Leaf – "the plant comes from the farm".

We recycle the leftover leaf to manufacture handicraft product with unique milky color. It is an ideal fiber to weaving our baskets, rugs, and poufs as its strength, durability and

designs and different for the market.

Story Founder

Meet Our Founder

Xin chào.

My name is Le Tuan Xuyen. Back in my childhood, our village was proud to be the oldest traditional village of seagrass handicraft making. At that time, everyone in the village worked on seagrass fields to do harvesting, processing raw materials and weaving them to make finished handicraft products. Especially, our seagrass products were very well-known for its high-quality material, durability and sophisticated techniques. Fortunately, until now, we are still able to keep our beautiful tradition lasting and continuously enhance it to meet international market standards for exporting despite various struggles. This is the most significant reason motivating to found Viet Trang Handicraft Company in 2001.

For me, Venus Handicrafts means more than a business. By utilizing availability of local resources, we can leverage local economy, generate income for local artisans, specifically for the local women, who knew how to weave since they were little girls. Moreover, by doing business efficiently, we can preserve and develop our tradition by passing down through younger generations. Finally, we desire to promote sustainable lifestyle with eco-friendly natural fibers

were little girls. Moreover, by doing business efficiently, we can preserve and develop our tradition by passing down through younger generations. Finally, we desire to promote sustainable lifestyle with eco-friendly natural fibers products. With exquisite weaving craftsmanship that was inherited through decades by our ancestors, it is high time we share our heritage with the world.

Mr. Le Tuan Xuyen
